

G3BO SUPPLEMENTAL AGREEMENT

In consideration of being permitted by Tradefair to access Tradefair's Global Best Bid Best Offer ("G3BO") pricing, the undersigned customer ("Customer") agrees as follows:

Tradefair is hereby empowered and authorized to charge and deduct from the trading account(s) of Customer established and maintained with Tradefair according to the terms and conditions contained herein:

At the time of the Customer trading using Tradefair's G3BO pricing, Tradefair will charge the Customer a Minimum Commission Fee of USD 40.00 per million USD notional value, which in the case of spot forex, is calculated based on the value of the second named currency of the pair. The commission will be converted to the Base Currency of the Customer's account at the Tradefair's applicable conversion rates at that time.

Should the Customer qualify for a rebate, Tradefair will rebate the Customer, in tranches* once a month, any difference between the Minimum Commission Fee charged and the relevant Commission Charge for each volume band shown in the table below based on the total volume traded in the previous calendar month by the Customer, per trading account, using Tradefair's G3BO. The Customer agrees and understands that during each calendar month any accumulating rebate is not taken in to consideration by Tradefair when calculating the Customer's Equity or Available Equity, and therefore will not be included in calculations of Risk Level or Credit Risk Level. Rebates cannot be assigned to a trading account by the Customer; any rebate for which the Customer qualifies will be deposited in the trading account to which the rebate applies.

Monthly Trading Volume (USD Notional Value)	Commission Charge Fee Per Million (USD)
1 – 50,000,000	\$40.00
50,000,001 – 150,000,000	\$30.00
150,000,001 – 300,000,000	\$25.00
300,000,001 – 500,000,000	\$20.00
500,000,001 – 1,000,000,000	\$15.00
1,000,000,001-3,000,000,000	\$10.00
3,000,000,001+	\$10.00**

*Customer will be charged commission at a rate of USD 40 per million USD notional value. Customer will be rebated in tranches. For example, if total notional value traded is 150,000,000, the first 50,000,000 traded are charged a commission of USD 40 per million, and no rebate is given, the remaining value, from 50,000,001-150,000,000, will be rebated to reflect a total commission charge of 30 USD per million.

**For the Customer whose trading volume is 3,000,000,001, or more, commissions will not be rebated in tranches, but rebated to reflect a total commission charge of USD 10.00 per million USD Notional Value on all trading volume.
